painting competition

PERSONAL PROJECTS

Library Management
- Library management is made by HTML, CSS, Bootstrap. The purpose for making this website is to solve the problem faced in college libraries i.e. we don't have any idea that particular book is present or not in library. By this website it can easily access data of books availability by students as well as librarian.

Calculator
- This calculator is developed by using HTML, CSS, JavaScript. This project contains the number, operations and sign like in normal calculator. So ,user can enter any number or just click on the number they want in calculate.
